“SPIRITUAL EMPOWERMENT FOR SUCCESS IN BUSINESS & INDUSTRY”

26th to 30th Sep 2024

Organiser

Business & Industry Wing (RE & RF)

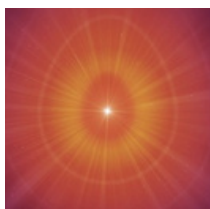

ABOUT THE CONFERENCE

In these challenging times, in the field of business and industry there are innumerable demands and unreachable targets. The level of stress and pressure is increasing day by day. Self created fears give rise to unhealthy thoughts and feelings. People try to find a way out of these conditions through different methods to relax. However, an ability to respond to situations without destroying our state of mind requires total change of consciousness. If the state of mind is calm and stable then in the face of any condition or circumstance, there is no difficulty or stress. Such a state of mind is achievable through giving positive direction to our thoughts and recognizing what we are innately. This process brings about self empowerment.

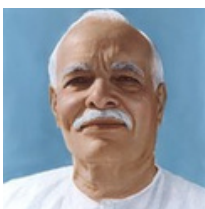

It results in bringing effective decisions, clear vision and a greater attitude to succeed with ease. Amidst the chaos of the business world one can withdraw to spend some moments of silence to experience inner peace. Thus we are in charge of our inner world and the world around us making us prepared for the future. Such a holistically healthy person is able make a positive impact on others and help create a healthy and a clean society.
